The level of 5190 continues to remain crucial level to watch

Key Highlights

- Nifty Futures closed at 5199 which is just 8 point lower than its previous close of 5207.
- It opened positive but failed to sustain at higher levels and at the end closed flat near its important support level of 5190 as mentioned in earlier report.
- Nifty Futures has formed rising channel on daily chart which is also offering support at 5190 making it trend deciding level for immediate term.
- The 200 Day EMA is placed at 5170, hence the range of 5170 5190 would act as a strong supportive zone for Nifty Futures if any corrective bounce is seen.
- If this range of 5170 5190 is not respected then immediate support is placed at 5135 which 38% Fibonacci retracement level of entire advance from 4761 till 5365.
- On the higher side the range of 5260 5300 continues to provide good resistance and upward momentum would be seen only above this zone.
- The short term trend will remain in upward direction till the time Nifty Futures trades above 5090 which is crucial level to watch.
- The intermediate trend of Nifty Futures is in upward direction and the intermediate trend reversal level is 5000 on weekly closing basis.
